

**EMBRACE  
SUSTAINABLE LIVING  
WITH ECOLOGICAL  
WOOD FLOORING  
SOLUTION WHICH DO  
NOT HARM NATURE.**

**CONSTRUCT SOURCE  
WOODEN PLANK INSPIRATION**

The Construct Source Wooden Plank Collection is inspired by the asymmetrical forms and appeal of nature. The collection takes its inspiration from the fluidity and minimalism of the patterns that the trees and wood hold and resonates it in surfaces elegantly crafted in the light of nature.

More importantly, the collection is largely an attempt to offer a sustainable, ecological, and eco-conscious alternative to wooden flooring. It allows homeowners and designers to make sustainable choices without compromising on the vision for their spaces.
